GIS DATA FOR THE GEOLOGIC MAP OF THE LAKE TAHOE BASIN, CALIFORNIA AND NEVADA

CGS CD 2008-01

Compiled by
George J. Saucedo

Digitized by
Jason D. Little, Sarah E. Watkins, Jennifer R. Davis,
Marina T. Mascorro, Victoria D. Walker, and Eric W. Ford

This CD contains the digital Geographic Information System (GIS) data that was used to prepare the Geologic Map of the Lake Tahoe Basin, California and Nevada, published in 2005, as Map No. 4 in the 1:100,000-scale Regional Geologic Map Series. These data are in both raster and vector format that are compatible with ArcGIS, a commercial GIS software package by Environmental Systems Research Institute (ESRI), and may be compatible with other GIS software. The data are in ARC coverage, shapefile and Arc export (.e00) format with accompanying metadata in several formats. Also included on the CD is an image of the published geologic map in Portable Document Format (.pdf) viewable with Acrobat Reader and an interactive geologic map in ESRI Published Map Format (.pmf) that requires ArcReader to use. Both ArcReader and Acrobat Reader are available for free download from the internet.

Price..... \$15.00

Shipping and handling..... \$5.00
